

POLYCARBONATE OPAQUE ATECH[®] 7000

Founded in Sweden, Arla Plast now has grown into a publicly listed company with factories in four countries, while maintaining our strong reputation for quality and reliability. With over 55 years of experience in extruding plastic sheets, we deliver high-quality polycarbonate products to a wide customer base.

Our expertise in opaque coloured and textured sheets makes us a trusted partner for projects in automotive, design, industry, and beyond. By combining both virgin and recycled materials, we create sustainable, environmentally friendly solutions that meet the highest standards across various industries.

POLYCARBONATE OPAQUE ATECH® 7000

Our Polycarbonate OPAQUE ATECH® sheets can be supplied in a wide range of standard colour, custom colours and textures, making them adaptable to diverse applications. We can match your exact colour and surface needs, giving you the freedom to create tailored solutions. From smooth to matte or textured finishes, our sheets can be created to suit your specific needs.

Polycarbonate OPAQUE ATECH® is a highly durable and impact-resistant material that combines lightweight properties with exceptional strength. Our sheets can also be offered with UV resistance, flame retardance, and can endure extreme temperatures, making them ideal for indoor and outdoor use.

Polycarbonate sheets are highly versatile and can be easily processed through thermoforming, machining, cutting, drilling,

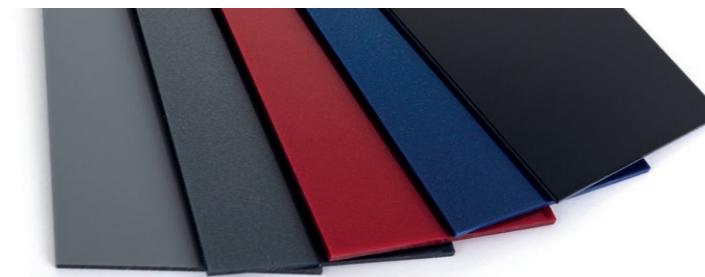

and bending, making it ideal for a wide range of applications in construction, design, and industry.

Additionally, our polycarbonate products are recyclable and reusable, supporting a circular economy and minimizing waste – making them a sustainable choice for the future.

Thanks to its unique properties, polycarbonate is used in a wide range of applications. Our products are popular in e.g. the for wall cladding, suite cases, machine covers, agriculture equipment, automotive parts, emballege, pallet lids and protective screens.

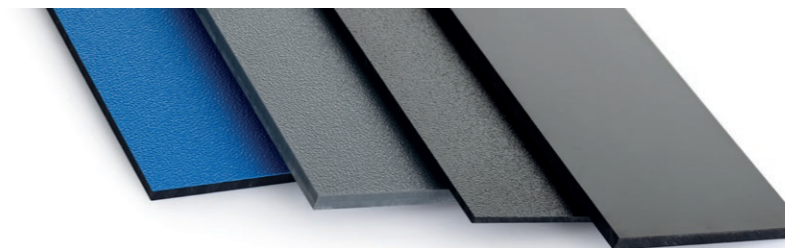

Product range

- Available with different surface structures
- Standard glossy colours, metallic colours, matt colours, dual colours
- Optional with a stripe applied for automotive special trays solutions
- Optional with a protecting UV layer
- Fire properties, self-extinguishing

Standard solutions

- POLYCARBONATE OPAQUE ATECH® 7000 – Standard opaque coloured sheet
- POLYCARBONATE OPAQUE ATECH® 7003 – UV protected sheet for outdoor applications
- POLYCARBONATE OPAQUE ATECH® 7100 – Matt topside
- POLYCARBONATE OPAQUE ATECH® 7000 FR – Flame retardant with V0 and 5VA classification to UL-94
- POLYCARBONATE OPAQUE ATECH® 7000 STR – Stripe applied for special trays used in automotive industry

Sustainable solutions with recycled material

- POLYCARBONATE OPAQUE ATECH® 7000R – Recycled opaque coloured sheet
- POLYCARBONATE OPAQUE ATECH® 7003R – UV protected sheet for outdoor applications
- POLYCARBONATE OPAQUE ATECH® 7000R CCO – black base with a coloured topside to your requirements
- POLYCARBONATE OPAQUE ATECH® 7100R – Matt topside
- POLYCARBONATE OPAQUE ATECH® 7000R STR – stripe applied for special trays used in automotive industry
